## Beautiful Reminder For The Believers

وَلَنَبْلُوَنَّكُمْ بِشَيْءٍ مِّنَ الْخَوْفِ وَالْجُوعِ وَنَقْصٍ مِّنَ الْأَمْوَالِ وَالْأَنْفُسِ  
وَالثَّمَرَاتِ ۖ وَبَشِّرِ الصَّابِرِينَ - 2:155

And We will surely test you with something of fear and hunger and a loss of wealth and lives and fruits, but give good tidings to the patient.

### **Tests are given to us to strengthen our eeman (faith)**

We are reminded in a hadith that Islam is a blessing for us. There is good for us in everything – every experience we go through, whether we ourselves perceive it as positive or negative. We read: "How wonderful is the case of a believer; there is good for him in everything and this applies only to a believer. If prosperity attends him, he expresses gratitude to Allah and that is good for him; and if adversity befalls him, he endures it patiently and that is better for him." (Sahih Muslim)

May Allah make us people who understand that there is good for us both in our times of joy as well as our times of hardship in this Dunya. May He make us of those who are grateful, and may He grant us patience. Aameen. Indeed, Allah is Ar-Rahman (The Most Merciful)

## A RAY OF HOPE—DEPRESSION MANAGEMENT WORKSHOP FOR 2 DAYS:

Gio chandrayangutta unit held a 2 day workshop over the month of July 2020. As we all know spread of Covid 19 and lockdown took a toll on mental health as well even on the one who were and are safe from infection. The situation has brought sense of fear and uncertainty in the students and youngsters due to sudden halt in their studies, extra curriculum activities and the plans they were working to achieve their goals. Also many of them had to undergo emotional stress due to loss of near ones and dear ones to Covid 19. Such situation tends to create low feelings and despair among the individuals which may lead to depression. Hence to overcome such situation, one needs to be educated, aware and know the coping skills. Keeping this in mind, Gio Chandrayangutta unit came up with very apt solution by planning a 2 day workshop on the Depression management. On first day, very talented and professional Dr. Roohila Parveen took the task to bring the awareness to young girls about Depression and its vices followed by coping techniques along with Sehla Safana who spoke on how to tackle problems. On day 2, Mr Arshad Ahmed Khan spoke about the values of Islam which are important to hold in the times of despair giving a Bright Ray of Hope to each and every participants which they can carry on further to others and pass this hope and make world brighter place to live in. In total 100+ participants passionately attended the workshop.

# 10 inventions by Muslims in glorious past

## 1. Surgery

Around the year 1,000, the celebrated doctor Al Zahrawi published a 1,500 page illustrated encyclopedia of surgery that was used in Europe as a medical reference for the next 500 years. Among his many inventions, Zahrawi discovered the use of dissolving cat gut to stitch wounds -- beforehand a second surgery had to be performed to remove sutures. He also reportedly performed the first caesarean operation and created the first pair of forceps.

## 2. Coffee

Now the Western world's drink du jour, coffee was first brewed in Yemen around the 9th century. In its earliest days, coffee helped Sufis stay up during late nights of devotion. Later brought to Cairo by a group of students, the coffee buzz soon caught on around the empire. By the 13th century it reached Turkey, but not until the 16th century did the beans start boiling in Europe, brought to Italy by a Venetian trader.

## 3. Flying machine

"Abbas ibn Firnas was the first person to make a real attempt to construct a flying machine and fly," said Hassani. In the 9th century he designed a winged apparatus, roughly resembling a bird costume. In his most famous trial near Cordoba in Spain, Firnas flew upward for a few moments, before falling to the ground and partially breaking his back. His designs would undoubtedly have been an inspiration for famed Italian artist and inventor Leonardo da Vinci's hundreds of years later, said Hassani.

## 4. University

In 859 a young princess named Fatima al-Firhi founded the first degree-granting university in Fez, Morocco. Her sister Miriam founded an adjacent mosque and together the complex became the al-Qarawiyyin Mosque and University. Still operating almost 1,200 years later, Hassani says he hopes the center will remind people that learning is at the core of the Islamic tradition and that the story of the al-Firhi sisters will inspire young Muslim women around the world today.

## 5. Algebra

The word algebra comes from the title of a Persian mathematician's famous 9th century treatise "Kitab al-Jabr Wa l-Mugabala" which translates roughly as "The Book of Reasoning and Balancing." Built on the roots of Greek and Hindu systems, the new algebraic order was a unifying system for rational numbers, irrational numbers and geometrical magnitudes. The same mathematician, Al-Khwarizmi, was also the first to introduce the concept of raising a number to a power.
